

Nordic Gods

Thesis

Nordic Gods is the future of erotic experiences.

Nordic Gods is a society for the extraordinary gentlemen. We are based out of Europe. We think of hospitality in a different way. Imagine a week off in a secluded castle, surrounded by beautiful goddesses who would cater to all your needs.

You are royalty, we treat you like one and we provide you a harem.

Milestones for Nordic Gods

A castle for our guests: We intend to purchase a castle.

We take hospitality seriously. We understand that life is hard and money spent on self indulgence and personal happiness should give maximum returns. We treat our guests like royalty that they are - the finest wine from France, the gorgeous views from a castle and the most elegant women at your command.

A harem for our lord: We recruit the most beautiful, elegant women to serve your deepest fantasies. From naked dances, to royal orgies - our team of sexy, bold and gorgeous ladies would pleasure you and provide you with exquisite service 24x7 – from food, company to physical intimacy.

FAQs

1. Is Nordic Gods a brothel?

No. The erotic experience is just a part of a grander goal. Nordic Gods is a hospitality service.

2. Why buy a castle?

Why not? We are the sum total of our experiences. Why not experience heaven

3. How do I trust Nordic Gods?

You can't. As with every crowdfunding projects, ours is fraught with risks. We believe the rewards we are promising is well worth the risks. Think of us as an investment in a one-of-a kind experience that only few can have.

4. What about the harem? Safety, legality, consent?

Our harem is staffed by young adult women recruited by us. They know what the job description is and what is expected of them. The salary and the perks provided by us is competitive and lucrative.

5. How do you maintain anonymity and privacy?

Crypto – that's how! All payments and transactions are done over the blockchain. Your membership proof is an NFT stored in your wallet. At any point in your life, if you wish to sever ties with us, you can sell the NFT to someone else. All your benefits would be passed on to the new holder and we won't know the difference. To us your NFT and the wallet is your identity. We don't care who you are in the real world>
